

## About the course

Knowledge of financial aspects, which helps in decision making, is the key to success. It is important for non-finance professionals to be conversant with financial-decision making tools, which helps them to analyse a given financial statement, understand the nature of cost and ways to reduce cost, take pricing decision, decide a product mix and opt for the best option suiting the financing need.

This program provides awareness and understanding of the ways finance affects their business objectives. The participants will get familiar with the form, content and analysis of financial statements and the main accounting principles and techniques. The program may also help in the improvement of organizations' performance by pointing out the importance of cost control, break even and variance analysis. After completing the program, participants will be able to communicate comfortably with financial executives and discuss the financial performance of the organization effectively.

This 11+ hour program is expected to give you valuable insight on important financial areas and is extremely relevant for decision making.
