

Valuation, Analytics, and Modelling (VAM) Excellence Program

Where financial acumen meets technical precision

Blended learning model to gain ready-to-apply skills

The better the question.
The better the answer.
The better the world works.

Shape the future
with confidence

In today's fast-evolving business landscape, professionals with strong financial modelling, business valuation, and data analytics skills are in high demand. The Valuation, Analytics, and Modelling (VAM) Excellence Program offers a learning path that blends self-paced eLearning with interactive live virtual sessions to equip participants with practical skills and industry-relevant knowledge in:

-  Financial Modelling and Valuation
-  Business Valuation
-  Business Intelligence with Power BI
-  Lean Six Sigma Green Belt
-  Advanced Excel

Delivered by EY professionals, industry experts, and esteemed academicians, this program provides comprehensive coverage of financial models, valuation techniques, and analytical tools, helping participants develop the expertise needed to make data-driven business decisions.

Program overview

The program is designed to provide participants with a strong foundation in financial analysis, business valuation, and data visualization. Through real-world case studies, industry best practices, and hands-on experience, learners will gain practical insights and technical expertise required to navigate today's complex business environment.

Key learning modules

Financial modelling and valuation

Develop proficiency in building dynamic financial models to assess business performance and valuation methodologies.

Business valuation

Master industry-proven techniques to evaluate a company's worth and support investment and strategic decisions.

Business Intelligence with Power BI

Learn how to transform raw data into meaningful insights using advanced visualization and analytics.

Lean Six Sigma Green Belt

Gain expertise in data-driven problem-solving and process optimization for operational excellence.

Advanced excel

Enhance your excel skills with automation, advanced functions, and data analysis techniques to improve productivity.

Program deliverables

	Unlimited access for a year to five self-paced eLearning courses
	60 hours of live virtual sessions conducted by industry experts
	GenAI masterclass
	Comprehensive concept coverage with real-world case studies
	Hands-on training with industry-relevant tools and applications
	Access to recorded live sessions to revisit or catch up on missed content
	Dedicated query support through the Ask EY Expert
	Participants will receive an EY Certificate of Completion upon successfully completing the eLearning course and its assessments
	EY presentation and datasets
	Global best practices and perspectives shared during the workshops
	Real-world case study integration
	Designed for immediate industry relevance

Who should enroll

The program is ideal for:

- Finance, business, and data professionals aiming to gain hands-on experience with industry tools
- Working professionals and entrepreneurs seeking to enhance their expertise and advance their careers
- Investment bankers and analysts in investment banking, equity research, and financial planning who require valuation and modelling expertise
- Corporate finance and strategy teams who are business decision-makers needing financial forecasting and data-driven insights
- Start-ups and SME owners requiring financial modelling and analytics for fundraising and business growth
- Management consultants and advisors focused on business performance, mergers and acquisitions, and operational efficiency
- Risk and compliance professionals working in financial regulation, risk management, and audit
- Students looking to build practical skills in finance and analytics

Why choose the VAM Excellence Program?

Expert-led learning –
Learn from EY professionals and industry leaders.

Industry-relevant curriculum –
Case studies and real-world applications to enhance learning.

Blended learning experience –
A flexible combination of live virtual sessions and eLearning.

Recognized certification –
Earn 5 eLearning certificates to validate your expertise.
